SUMMARY

Information Technology graduate specialising in Cybersecurity with hands-on experience in IT service desk operations, modern device management, and enterprise support environments. Currently working at Wavelink providing operational coordination, vendor engagement, and Level 1 technical support for networking and mobility technologies.

Experienced in Microsoft 365 administration, Entra ID and Active Directory user management, RBAC access control, and device provisioning across Windows environments. Skilled in troubleshooting hardware, software, and network issues, supporting Intune-based device management, and coordinating vendor hardware replacements. Proven ability to collaborate with technical teams, streamline support workflows through automation, and deliver responsive user support within SLA-driven service desk environments.

EDUCATION & QUALIFICATIONS

Central Queensland University
Bachelor in Information Technology major in Cybersecurity
2024 | GPA 6.875

Metropolitan College
Higher National Diploma in Marketing - 2017

WORK EXPERIENCE

Partner Experience Coordinator
Wavelink | August 2025 - Present | Hawthorn, Melbourne

- Coordinate partner order operations and provide frontline support for resellers and internal sales teams, ensuring requests are processed within defined SLAs.
- Manage vendor and partner communications, tracking product availability, delivery timelines, and coordinating issue resolution.
- Maintain operational workflows using NetSuite (CRM), Zoho Desk and HubSpot ensuring accurate documentation and ticket management.
- Collaborate with engineering, sales, and vendor teams to resolve operational and technical issues.
- Generate operational reports and support process improvements through NetSuite scripting and workflow automation to streamline team operations.
- Implement automation solutions using NetSuite Scripting, that reduce repetitive tasks, improving efficiency and response times while ensuring structured updates to stakeholders for effective order management and service delivery.

WORK EXPERIENCE

Technical Support Intern

Wavelink | March 2025 - August 2025 | Hawthorn, Melbourne

- Delivered Level 1 IT Service Desk support for enterprise networking and mobility solutions including Spectralink DECT/WiFi systems and Fortinet security infrastructure.
- Provisioned and configured new laptops and devices for staff, including Windows system setup, software installation, and device configuration.
- Created and managed Entra ID (Azure AD) and Active Directory user accounts, including access provisioning, RBAC role assignment, and directory synchronisation.
- Supported Microsoft 365 administration, including mailbox setup, user permissions, and security group management.
- Assisted with MDM onboarding using Microsoft Intune and SOTI MobiControl for device management and policy enforcement.
- Logged and resolved incidents through NetSuite and Zoho Desk, ensuring accurate documentation and SLA compliance.
- Configured and managed Fortinet NGFW including firewall policies, NAT, and SSL VPN
- Assisted in network segmentation and security policy implementation
- Conducted Wi-Fi site validation and network analysis using Ekahau AI Pro.

CNC Operator and Programmer

SAS Signages | March 2024 - July 2025 | Noble Park, Melbourne

- Designed production templates using CAD/CAM (ArtCAM).
- Operated CNC machines while maintaining quality and safety standards.
- Coordinated production tasks to meet project deadlines.
- Performed maintenance and troubleshoot hardware/software issues to reduce downtime.
- Provided Level 1 technical support for CNC systems and software.

Area Manager - QLD

CleanPeak | December 2021 - July 2022 | Brisbane

- Managed multi-site operations, supervising staff and coordinating service delivery.
- Implemented an inventory tracking system improving efficiency.
- Led client communication, team scheduling, and staff training on IT systems.
- Resolved operational issues while maintaining service standards.

Store Manager

Dominos Kirwan, Australia | January 2020 - November 2021

- Managed daily operations including staff supervision, scheduling, and inventory control.
- Supported and troubleshoot POS systems and payment-related issues, ensuring smooth daily operations
- Used POS analytics to optimise stock management and performance.
- Trained staff to improve productivity and service quality.
- Increased employee retention and customer satisfaction to 95%.
